

Montreal, March 19, 2020

Fromageries Bel Canada inc.
Press release

Subject: Message - COVID-19

As the international community mobilizes to confront this unprecedented pandemic in our times, Bel Canada reassures you that we are taking all necessary sanitary measures to ensure the health and safety of our employees and our consumer; it's our number one priority, as always.

We have restricted access to our facilities to the functions that are critical to maintaining business continuity, while also increasing sanitary measures to the highest degree. Employees who recently travelled or who exhibit symptoms are given explicit instructions to stay home and self-quarantine for the recommended period of time.

We have permitted all employees who can work from home to do so. Also, all at-risk individuals will stay home until further notice.

We are following events closely to ensure that we continue to provide our employees with a safe and healthy work environment. Thank you for your ongoing support and trust!
